

## TUBEX ECOVINE / ECOLIVO

Range of twin-wall tree and vine shelters that provide a greenhouse effect, specially designed for use with vine and olive tree plantations.

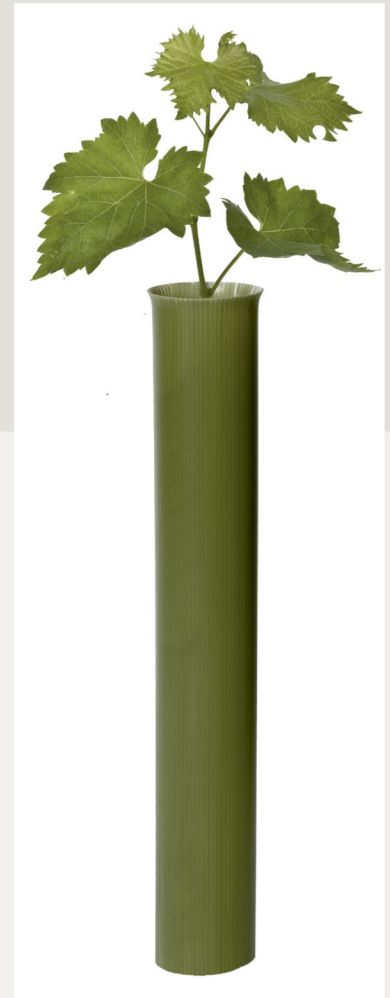

Solid, non-ventilated tubes that are quick and easy to install with or without stakes. They offer excellent protection from mechanical actions, physical damage caused by rodents and accidental contact with foliar-applied herbicides.

Each detail of the tree and vine shelter is designed to improve the initial establishment of the plants and subsequent growth. Optimal diameters to promote leader growth with fewer side shoots. The micro-climate created inside the shelter accelerates initial growth and improves survival rates. The flared top rim prevents abrasion to the plant stem.

For crops requiring increased ventilation, it is possible to manufacture **VENTILATED TUBEX Ecovine/Ecolivo**.

Tubex standard models are made of polypropylene with UV stabiliser to make them strong and reusable.

One sustainable, biodegradable and economically viable alternative is **TUBEX Ecovine/Ecolivo BIO**, which includes starch polymers in its composition. Initial oxo-biodegradation of the starch accelerates photodegradation of the polypropylene, converting both polymers into completely biodegradable material. This product guarantees a minimum of three years protection.

### SPECIFICATIONS

---

Polypropylene with UV stabiliser

---

Oxo-biodegradable polypropylene combined with bio-polymers

---

Height: 40 cm, 50 cm, 55 cm, 60 cm and 75 cm

---

Diameter: 7.1 cm - 8.6 cm (nests of 4)

---

Colour: green

---

Anti-abrasion flared top rim

---

Ventilated or solid

---

Laserline in the Ecolivo model

---

Also available in  
oxo degradable  
plastic

The Ecolivo model includes a laserline (line of laser-generated perforations) to ensure that the tube splits if the diameter of the olive tree trunk exceeds the diameter of the tree shelter before it degrades

Flared top rim to prevent abrasion to the plant stem

### ECOVINE / ECOLIVO

Height [cm]	Packaging	Ref.
40	Bags of 120 units	11001
50	Bags of 120 units	11002
55	Bags of 120 units	11003
60	Bags of 120 units	11004
75	Bags of 120 units	11005

Available on pallets for small supplies only.

### ECOVINE / ECOLIVO BIO

Height [cm]	Packaging	Ref.
40	Bags of 120 units	11006
50	Bags of 120 units	11007
55	Bags of 120 units	11008
60	Bags of 120 units	11009
75	Bags of 120 units	11010

Available on pallets for small supplies only.
