

## TREE TIES

Tie made of rubber elastomer to attach trees to the stake.

Flexible, does not strangle the tree and allows a certain degree of trunk movement.

Excellent tensile strength, UV resistance and resistance to extreme temperatures.

The loop between the tree and the stake prevents damage caused by abrasion.

### TREE TIES

Length [cm]	Ref.
25	85027
35	85028
45	52029
58	85030
